LinkedIn [linkedin.com/in/jordan-brown](#)

ROI-focused AI Engineer with a proven track record of deploying machine learning models that increased operational efficiency by 35%. Expertise in deep learning frameworks and natural language processing, driving product development that led to a 50% reduction in processing time for key applications. Eager to leverage advanced AI technologies to deliver impactful solutions in dynamic environments.

Leadership

## EXPERIENCE

### Senior AI Engineer

Tech Innovations Inc. January 2021 - Present

- Designed and Implemented a deep learning model that improved predictive accuracy by 40%.
- Led a cross-functional team in deploying an NLP-based solution enhancing customer support efficiency by 30%.
- Optimized existing algorithms, resulting in a 25% reduction in computational costs.
- Conducted workshops on AI best practices, training over 50 engineers in advanced techniques.
- Developed scalable machine learning pipelines, reducing data processing time by 50%.

### AI Engineer

Data Solutions Corp. June 2018 - December 2020

- Collaborated on developing a recommendation engine that increased user engagement by 20%.
- Implemented data preprocessing techniques which improved model training efficiency by 30%.
- Contributed to the integration of AI solutions into existing products, boosting market competitiveness.
- Performed A/B testing to optimize algorithms, achieving a 15% improvement in performance metrics.

## EDUCATION

### Master of Science in Artificial Intelligence

University of Technology August 2016 - May 2018

Focused coursework on machine learning, natural language processing, and robotics.

### Bachelor of Science in Computer Science

State University August 2012 - May 2016

Graduated with honors, specializing in software development and data structures.

## CERTIFICATIONS

### Deep Learning Specialization

Coursera January 2022 - March 2022

Completed comprehensive training on deep learning techniques.

### Certified TensorFlow Developer

Google April 2023 - June 2023

Validated skills in building and deploying TensorFlow models.
